SAINT STANISLAUS SAINT ALOYSIUS IN 7-7 TIE FRIDAY NIGHT

The St. Aloysius Crusaders of New Orleans staged a last quarter rally at Bay St. Louis Friday night to salvage a 7-7 tie with the St. Stanislaus Stockachans.

Quarterback Paul Reinhardt passed a 10-yard scoring pass to Claude Polson in the final period, with four minutes remaining, and then big Arthur Balser converted

to give the Crusaders the deadlock.

It was a bitter battle between two defensive stalwarts, as both teams played an even tempo in the first half, with neither willing to give ground and the halftime scoreboard indicated a scoreless tie.

But in the third period the Rocks' Ronnie Artigues halted a Crusader thrust by intercepting a Reinhardt pass on his own 10-yard line and raced 90 yards for the Stanislaus touchdown. Artigues added the extra point and the Rocks led 7-0.

They appeared the winner as they continued to stall Crusader ball-carriers, but St. Aloysius finally got a drive going late in the fourth period to gain the tie, their second of the season, with the Reinhardts to Polson TD passing pulling the game out of the fire for the Crusaders.

Score by quarters:

St. Aloysius	0 0 0 0 7
St. Stanislaus	0 0 7 0 7

BAY ST. LOUIS PUBLIC SCHOOLS MENUS

Monday, Nov. 23, 1959

Green Stamps

help keep
MISSISSIPPI PRICES
DOWN

Like the ads of local merchants that you see in this newspaper, S&H Green Stamps boost business. At the same time they help keep prices down.

Here is why: When a store sells more, it can sell for less, since bigger volume brings lower costs.

Stores that use S&H Green Stamps must sell competitively. Mississippi housewives are expert shoppers. They read the ads, they check and compare prices. And they can't be beaten.

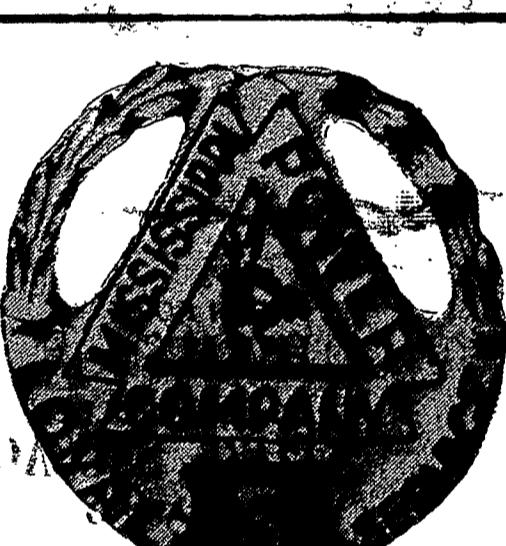

Trading stamps are being saved today by two out of three American families — over 35 million all. And their use is still growing in this and other States.

The Sperry and Hutchinson Company—America's oldest and largest trading stamp Company—would like to tell you more about how trading stamps help you and your community. Write for our booklet:

"How S&H Green Stamps and the Trading Stamp Industry Help Mississippi."

MISSISSIPPI DIVISION
Sperry and Hutchinson Company

A Symbol Of Experience

How often have you noticed employees of Mississippi Power Company wearing this Loyal Service emblem? Frequently, no doubt, because over 74% of our employees have more than five years' service and have been awarded these emblems for loyal and continuous service.

Since its beginning, Mississippi Power Company has endeavored to provide dependable electric service to every customer. We are confident that we accomplished that goal although we continue to strive for further improvements. And we recognize that generating plants, transmission lines and all of the electrical equipment necessary to provide electric power would be of little value without an organization of highly trained men and women... a team working together and dedicated to the principle of serving you, our customer, efficiently and economically.

Over 2,000 employees will be awarded new service awards this year, ranging from five to forty years. Throughout our Company, active employee records of service are as follows:

35 to 40 years	13
30 to 34 years	52
24 to 29 years	13
20 to 24 years	41
15 to 19 years	54
10 to 14 years	168
5 to 9 years	179

The skills of these men and women and their combined experience along with the skills of others more recently employed assure you of dependable, efficient, day-to-day service.

Mississippi Power Company is proud of its employees—proud of their work, their day. They are, without a doubt, the Company's greatest asset.

MISSISSIPPI POWER COMPANY

New yeast-raised Sugar 'N Spice Doughnuts with an unusual touch of orange are delicious and festive fare for holiday parties. Team them with ambrosial apple cider to make food fit for the gods—and guests!

SUGAR 'N SPICE DOUGHNUTS

1 cup milk
2 eggs, well beaten
24 cup margarine or butter
1/2 cup light brown sugar
1/2 teaspoon salt
1/2 teaspoon cinnamon
1/4 cup warm (not hot) water
1 package cake yeast,
active dry or compressed

Sold milk. Stir in margarine, light brown sugar and salt; cool to lukewarm. Measure water into large bowl (warm, not hot, water for dry yeast; lukewarm for compressed yeast). Sprinkle or crumble in yeast and stir until dissolved. Add eggs, spices, orange rind and lukewarm milk mixture. Stir in flour. Turn out onto lightly floured board and knead until smooth and elastic. Shape into ball. Place in greased bowl and brush top with soft shortening. Cover with dampened cloth and let rise in warm place (85° F.) until double, about 1 1/2 hours. Turn out onto lightly floured board and roll out 1/4 inch thick. Cut with 1 1/2-2 inch biscuit cutter. Place on baking sheet, cover and let rise in a warm place, free from draft, until double, about 30 minutes. Fry 3 or 4 at a time in hot fat (365°) about 3 minutes. Drain on paper toweling; sugar while warm. Makes 4 dozen.

Submerged Lands In Miss. Sound Leased To Shell Oil Company

The State Mineral Lease Commission awarded Shell Oil Co. a lease on 800,000 acres of submerged lands in Mississippi Sound.

\$80,000 BONUS

The company paid an \$80,000 bonus for the lease and was given a five-year primary term and the right to choose blocks of 10,000 acres each year on which an additional five-year lease would be extended.

The lease guaranteed Mississippi one to one-eighth royalty interest in any production.

Lester Clark, Hattiesburg attorney who represented the company, said Shell would spend one million dollars in exploration during the next two years.

In 1948 and 1951, bottoms in Mississippi Sound were leased for oil and gas development. Two tests were abandoned after they failed to find oil.

COMMISSION VOTE

The commission voted four to one to award the lease to Shell. Another bid was made by Louisiana Materials Co., New Orleans, which offered a bonus of \$50,000 and a guarantee to start drilling to a depth of 10,000 feet within one year.

Shell would pay 10 cents an acre in delay rentals for each acre retained, each selected block of acres and \$5 per acre for each selected area.

Assistant Atty. Gen. Matthew Harper, attorney for the commission, pointed out that the Shell bid was similar to the bid by Louisiana Materials.

State Rep. Walter Phillips of Bay St. Louis, attorney for Louisiana Materials, told the commission the Shell bid would permit the company to "checkerboard" the entire 800,000 acres in Mississippi sound rather than seek development of the whole area.

"We represent independents, people who are going in to drill wells and find oil," Phillips declared.

He said his client already has two commitments to drill wells and another contingent commitment.

STATE OIL PRODUCTION TOWARD NEW RECORD

Mississippi's oil industry is heading for a record year in total production with over 40,000,000 barrels produced through Sept.

The total oil production in the state last year was 9,313,000 barrels. The big jump in production for this year is attributed to the rapid development of the Little Creek, Bryan, Raleigh, Martinville, Sunniville and McComb fields, all recent finds.

The continued finding of deeper producing levels in many older fields has also added to the increase in oil production. The state's monthly production for the last four months has been over 4,000,000 barrels.

Are You Prepared? Defense Is...

December 1, 1959

It is the duty of every citizen to be prepared for possible emergency situations. This includes the possibility of a nuclear attack.

We know our powerful military forces are alert and ready. We know it is determined that we will not be caught with our guard down and we are at Peace Harbor on that day of infamy, Dec. 7, 1941. But what about our people? Are they prepared for atomic attack?

By providing protection for you and your family, you will be helping to build strong civil defense. By our own vigilance and preparedness, we earn the right to live in peace.

As President Eisenhower has said: "We make it plain, as only a united people can, that...

Dr. L. Gray, to
serve as State Chairman
of March of Dimes.

Dr. L. Gray, a veteran of 29 years in public health and now executive officer of the Mississippi State Board of Health will serve as the new state chairman of the New March of Dimes. Paul O'Connor, president of the National Foundation, was announced today.

Owen Cooper, Vicksburg, executive vice president of the Mississippi Corporation, will serve as the seventh executive vice associate state chairman, O'Connor added.

Dr. Gray will lead the new March of Dimes in Mississippi from January 23 to provide funds for the broadened health mission of The National Foundation.

The NEW March of Dimes program covers birth defects and arthritis as well as polio. O'Connor said. Some 11,000,000 Americans suffer the pain and crippling of arthritis and other rheumatic diseases and 250,000 infants are born each year with significant birth defects, he pointed out.

The National Foundation will not however, forget its obligation to the 50,000 polio victims currently being assisted by its 3,100 chapters, O'Connor declared. He said there are actually 180,000 polio patients who could benefit from further treatment.

In accepting the state chairmanhip Dr. Gray said: "The broadened program of the NEW March of Dimes offers help to thousands of people in Mississippi, who are now suffering the crippling effects of birth defects and arthritis. Direct aid in the financing of treatments will be offered to many young patients and all sufferers will benefit from the program of research and training of skilled health professionals."

"The American people, through the March of Dimes, provided the money which made possible the polio vaccine. I am confident that the people of Mississippi will support the New March of Dimes in its important work," Dr. Gray added.

Pointing out the increased need for

OWEN COOPER

her funds to support the NEW March of Dimes, Dr. Gray called attention to the fact that there were over 7,000 Mississippi children and adults who have been the victims of crippling polio and that total amount of Dimes money spent in Mississippi for their care has reached \$4,215,151.34.

In addition, out of 80,000 births in Mississippi each year, an estimated 3,750 (one out of sixteen) have a defect acquired before birth, Dr. Gray said.

Mr. Cooper, the associate chairman, one of the state's leading industrialists, called attention to the resarably effective work of the March of Dimes.

"This annual January fund appeal," he said, "provides all of us with the opportunity to have a part in a great research effort designed to prevent crippling diseases and to bring hope, relief, and happiness to millions."

Pointing out the triple attack against birth defects, arthritis and polio, Cooper called for "all out effort" in support of the New March of Dimes in January with more volunteers, and more generous donations than ever before."

NIGHT LIGHTS

Good night vision is important to avoid driving accidents. The driver should be able to adapt rapidly to darkness after exposure to light. Glare resistance decreases with age. Other night-time hindrances, according to researchers for the Murine Company, are flashing signs, reflections from windshields, lights inside the car and dark glasses. Physiological ability to see at night is reduced by alcohol, carbon monoxide, excess smoking and lack of oxygen. Remember to always lower exterior lights for approaching cars and also for cars you approach from the rear.

NATURAL EYE BEAUTY

Foods rich in Vitamin A contribute to eye beauty by keeping the eyes healthy. Nutritionists recommend such vitamin A-rich foods as carrots, spinach, kale, escarole, broccoli and lettuce.

Other foods rich in vitamin A are apricots, peaches, beef and calf's

liver.

HONORED AT SHOWER

Mrs. J. C. Miller, Jr., of Christiania, returned Wednesday after a week's trip to Mexico and where Mr. and Mrs. Raymond, III, in New Orleans.

Mr. and Mrs. W. H. McCandless, Jr., and children, Billy and Debbie, will arrive Wednesday from New Orleans to spend the Thanksgiving holiday with Mr. and Mrs. Robert and Mrs. James DeJillie. Mr. and Mrs. Henry Osoinski and Mrs. Green represented the Hancock County Chamber of Commerce at the Coast Guard Banquet held Tuesday night at Pascagoula.

Mr. L. H. Raymond, Jr. was to New Orleans Wednesday for the death of his aunt, Mrs. Oberding, who passed away at 8 a.m. in a New Orleans hospital.

Mr. and Mrs. Lamar Bassett, Pascagoula, were weekend guests of her parents, Mr. and Mrs. Henry Capdepon, Sr.

Sunday guests of Mrs. Charles and son over the weekend were daughter, Mrs. Henry Parker and daughter, Barbara Rayburn Hester, of Mobile.

Mr. and Mrs. C. C. McDonald, and Mrs. and Mrs. W. F. McDonald will host a dinner for couples Club Saturday at Annie's at Henderson.

Almond Blaize, Jr., a freshman at River Jr. College, spent weekend with his parents and wife.

Gayle Parker and Miss Lee of Paul River Junior were weekend guests of Mr. and Mrs. Leo Parker.

Philip Hayes, who returned Monday following surgery at the Eye, Ear, Nose and Throat Hospital, New Orleans, is recuperating nicely.

Judy Copponell and Patsy Ratto attended the weekend session at Talitha Cum. They reported Tuesday at the Sodality meeting on what they had learned and gave helpful hints on numerous subjects, the school will be able to do in order to keep Christ in Christmas.

Open House will be held on Monday with all classes participating. There will be exhibits throughout the school and a program of entertainment will be enjoyed by everyone who attends.

Sunday the Altar Society will hold its benefit turkey dinner at the Parish Hall from 11 a.m. to 2 p.m.

The Gold Jays, Junior and Varsity teams, were again victorious Tuesday night when they played St. Joseph's from Pass Christian.

Preparations for the Harvest Dance Sunday night are well under way. The dance is given by the S. J. A. Seniors in the gym.

Veal, Pork And Turkey Shoot November 22nd.

A veal, pork and turkey match for the benefit of Mrs. Winnie Dawson of Logtown, who recently lost her home by fire will be held at Scafidi Service Station, Highway 90, Sunday, November 22, at 1 p.m.
